Energetic and precise Welder with 5 years professional welder experience using a variety of welding techniques to create strong, finished steel, cast iron and aluminium structures. I had learned the welding skills from my father, he had his own workshop and I loved to see him making new iron things every day. Works efficiently in fast-paced construction environments without sacrificing superior quality. I am looking for the opportunity to use my expertise on next level work. I can make small tractors, number of farming tools, and anything related.

Work Experience

Senior Welder

Vishwakarma Workshop

January 2015 to August 2020

- Experience of stick welding, depending on required finish
- Carefully arrange materials according to blueprints, securing with clamps or bolts before welding
- Ensure quality of finished products, leading tolerance tests, filling holes and repairing improperly welded pieces with stick welder
- Performed thorough strength and tolerance tests on finished materials to ensure top quality
- Repaired damaged iron and steel structures

Education

Bachelor of ARTS

D.A.V College

Skills

- MIG, TIG, FCAW & SMAW welding
- Design new things as per customer's choice
- Excellent communication skills
