Work Experience

Armoured Vehicle Spray Painter

Industrial and Automotive - Toronto, ON

2018 to 2019

Industrial and automotive spray painter. I'm currently working as an industrial painter at a metal fabrication shop. Spraying military equipment, armoured vehicles, box liners, thick gravel guard like protective coatings, aircraft components, carbon fiber/composites, wood panel trim pieces and anything steel or aluminium that customers require. Working in very hot and stressful situations in sometimes confined spaces or extreme heights. A lot of Powder Coating as well. Phosphate chemical baths. Setting up. Ensuring parts and racks are well grounded then after powder coated baking for 30 min at 450 degrees celcius. Spraying a wide variety of paints and with different types of paint guns. I have over 15 yrs experience spraying, prepping, masking, polishing, colour matching and refinishing correctly and in a time efficient manner. Being always in control of my paint and paint gun because it is essential to spray without runs, fish eyes, dry spray or orange peel and the mil thickness is constantly being measure and have to be within acceptable limits. Removing and installing parts. Booth maintenance. Inventory. Giving direction where needed

Automotive Painter

Mario's Autobody - North Bay, ON

2017 to 2018

Head painter of a body-shop. select best match from paints card. spray test cards. check in sunlight. precisely measure and spray water based and single stage paints, primers and clears. a lot of blending, polishing and masking. keeping paint booth, storage cabinets and mixing room clean and organized. responsible for inventory and maintenance of paints guns and paint booth. Dealing with any problems as they arise as correctly and quickly as possible.
